# CLEF 2000 – 2004

## Shift in Focus

CLEF 2004 Workshop, Bath, UK  
15-17 September 2004

# CLEF 2004: Results

- Participation is up: 55 groups in 2004 (42 in 2003)
- Expansion of test-suite
- Great success of QA@CLEF and ImageCLEF
- CLEF research community: synergy of diverse expertise partly consequence of new tracks – IR, NLP, Image Processing, Speech Processing, ..
- CLEF 2004 Workshop 15-17 September, in conjunction with ECDL2004, ca 95 participants (70 in 2003)

# CLEF Results in 8 Yrs

- ◆ Creation of strong CLIR research community (increase in participation over years )
- ◆ Strong profile (we are “known”)
- ◆ Promotion of research in key areas (multilingual IR; results merging; cross-language access in multimedia; interactive query formulation and results presentation)
- ◆ Encouraged take-up of techniques/resources between research groups
- ◆ Stimulated synergy between researchers from different areas (IR, NLP, Image Processing, User Interfaces, ...)
- ◆ Literature: Working Notes, Proceedings and other publications report state-of-the-art plus emerging trends
- ◆ Production of language resources; test-suites
